End Application:

Kc-135 aircraft age.

Nominallength:

4.000 inches

Nominaldiameter:

2.000 inches

Special Features:

Company name-maintenance fixture, air pressure

Functional Description:

Used to provide air pressure to bypass valve bore to adjust 30 cam settings as measured by tach servo piston on fuel valve housing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
