Aircraft Pneumatic Systems Components Fixture - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-01-175-9386

End Application:
Kc-135 aircraft age.
Nominallength:
4.000 inches
Nominaldiameter:
2.000 inches
Special Features:
Company name-maintenance fixture, air pressure
Functional Description:
Used to provide air pressure to bypass valve bore to adjust 30 cam settings as measured by tach servo piston on fuel valve housing
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A505c0
