End Application:

C-5a aircraft age.

Product Name:

Torque test fixture

Special Features:

C/oplug, cable assembly, & fixture

Functional Description:

Used to mount the torque motor of vertical scale engine instrument, provide the mechanical loading, and apply excitation signals for torque motors in the parameter indicating channels

Reference Data And Literature:

T.O. 33a3-4-43-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
