End Application:

B-1b aircraft age.

Specific Usage Design:

Used during aircraft maintenance

Nominal length:

15.000 inches

Nominal width:

8.000 inches

Nominal height:

5.000 inches

Special Features:

Engine bleed air distribution subsystem

Functional Description:

Adapter is bolted to the blower and then bolted to the test bench

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
