**End Application:**

B-1b aircraft age.

**Specific Usage Design:**

Used during aircraft maintenance

**Nominal length:**

15.000 inches

**Nominal width:**

8.000 inches

**Nominal height:**

5.000 inches

**Special Features:**

Engine bleed air distribution subsystem

**Functional Description:**

Adapter is bolted to the blower and then bolted to the test bench

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
