End Application:

B-1b aircraft age.

Special Features:

C/o skid containing mtg provisions, load cell, hydraulic jack, misc hardware and fittings

Functional Description:

Adapts hydraulic interface to hydraulic power source, loads actuators w/compression and tension load, performs insulation resistance test, performs dielectric withstanding voltage during proof pressure and leakage testing of hydraulic actuators at depot maintenance level

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
