**Mounting Type:**

Portable

**Product Name:**

Demand oxygen regulator leakage tester

**Special Features:**

Consists of an aluminum carrying case with hinged lid, a flow measuring gage, a pressure gage, a viscous oriface tube, squeeze bulb and pressure reservoir, bleed valve, filter, necessary tubing and connecting adapters; dimensions height 4.5 inches, width 6.0 inches and length 12.0 inches

**Functional Description:**

Provides a means for testing air leakage testing of oxygen demand regulators

**Reference Data And Literature:**

T.O. 33d2-10-32-1

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T361-f
