End Application:

F-15c/d acft

Nominal length:

100.000 inches

Nominal width:

26.000 inches

Nominal height:

44.000 inches

Special Features:

Aluminum; company name-mating positioner-vertical stabilizer

Functional Description:

Used to align the vertical stabilizer within 0.500 inch at tip in relation to the pivot point prior to drilling holes through the torque box moldline skin.

Unpackaged Unit Weight:

90.000 pounds

Reference Data And Literature:

Serd no. 9888

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
