End Application:

F/fb-111 avionics system age.

Functional Description:

C/o control console, common core console, radio frequency unique console, antenna coupler/load group, operating power requirements 103.5-126.5 v, 47-67 hz, single phase, 20 kva, complement data power control monitor, printer, 11 power supplies, 6 blower assembly, magnetic tape and disc drive, computerassy, display terminal assembly, keyboard, multifunction unit, digital multimeterassy, waveform analyzer assembly, load assembly, dwg controller, switching interfaceassy, digital word generator, distributed processor, universal counter assembly, synthesized sweeper, 2 power meters, rf interface assembly, microwave counter, utility power panel, blower assembly, waveguide pressure assembly, spectrum analyzer, antenna coupler/load group, test groupand it is deployable

Reference Data And Literature:

T.O. 33d7-38-208-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
