**End Application:**

Cfm56 f108-cf-100 main engine control

**Special Features:**

To name: indicator

**Functional Description:**

Special mounting and a modified indicator point for use in performing compressor inlet temperature & altitudesensor calibration

**Reference Data And Literature:**

To 6j3-4-113-4

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
