End Application:

B-1b acft

Special Features:

60.000 in. L, 32.000 in. W, 40.000 in. H; c/o adapter to mount turbocompressor, interface panel where all measurement and control devices terminate, magnetic coil with amplifier to sense turbine speed, accelerometer with vibration amplifier, taps for temperature, pressure and flow measurement, inlet and outlet turbine to ram air heat exchanger, tubing and stud connections to adapt turbocompressor for testing

Supplementary Features:

Company item name-adapter, turbocharger

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
