**End Application:**

B-1b aircraft age

**Product Name:**

Adapter-test, turbocompressor inlet

**Special Features:**

C/o blanking flange; seal bonded to inside surface on the flange; fitting attached to the press inlet boss of the flange; one tethered fitting; coupling tethered to the cap

**Functional Description:**

Used to interface the pneumatic component test stand to test the turbo-compressor unit

**Reference Data And Literature:**

To 35-1-271-2

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23800
