**End Application:**

F109-ga-100 engine support equipment

**Nominal length:**

10.000 inches

**Nominal width:**

10.000 inches

**Nominal height:**

7.000 inches

**Special Features:**

Steel; company item name-fixture, holding turbine module

**Functional Description:**

Supports low pressure turbine module in a vertical attitude to allow assembly and disassembly at intermediate level maintenance

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A505c0
