**End Application:**

F-109-ga-100 engine support equipment

**Nominallength:**

15.000 inches

**Nominalwidth:**

15.000 inches

**Nominaldiameter:**

10.000 inches

**Special Features:**

Steel

**Functional Description:**

Required to load low pressure turbine shaft aft when the fan shaft has been removed and further maintenance is required in the aft end of the engine

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
