**End Application:**

F-109-ga-100 turbofan engine

**Nominal length:**

10.000 inches

**Nominal width:**

4.000 inches

**Nominal height:**

4.000 inches

**Special Features:**

Steel; 3 dowel pins to engage 3 of 7 holes on bevel gear

**Functional Description:**

Used to support and prevent rotation of the 3082518-1 bevel gear while installing the 3081487-1 bearing and torquing or removing 3001528-5 nut

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A505c0
