Overall Length:

18.000 inches

Overall Height:

8.000 inches

Overall Width:

18.000 inches

Special Features:

C/o heating controls and timers

Functional Description:

Used to heat various engine components to predetermined temperatures to expand the component material to allow for a slip fit, f109-hs-100 engine

Reference Data And Literature:

Serd 0031

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T276-d
