End Application:

B-1b aircraft age.

Special Features:

Size: 11.000 in. L, 3.000 in. W, 1.000 in. H; contains one hole 1.500 in. Diameter thru, contains four holes 0.437 in. Diameter thru, contains four holes 3/8-16thd

Functional Description:

Used to adapt universal torque machine in order to apply torque to servo actuator retainer (p/n 5877103)

Supplementary Features:

Company item name-adapter, torque machine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
