End Application:

B-1b aircraft thrust control actuator 293e443g3

Product Name:

Actuator test set

Functional Description:

Used to test switch limit settings, synchro null adjustment, actuator travel, actuator response time, output torque, and provide input stimuli

Reference Data And Literature:

To 8a1-13-12-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
