Overall Height:

8.000 inches

Overall Diameter:

21.600 inches

Heating Element:

Included

Product Name:

Heater, first stage turbine disk retr plt snap dia

Special Features:

Company item name-heater

Functional Description:

Used to facilitate installing the 1st stage turbine disk

Reference Data And Literature:

T.O. 2j-f100-94; serd 6263; t.O. 33d4-6-511-1

Fsc Application Data:

F100-pw-100/200/220/229 engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T276-d
