End Application:

B-1b aircraft age. Suppgincludes software for testing circuit card assemblies, p/n's 400-10400-101, 400-10413-101, 400-10414-101

Test Item Connection Method:

Connector

Functional Description:

Performs fault detection, fault isolation and repair verification of shop replaceable units

Fsc Application Data:

Generator, electronic marker, sg-1256/asq-184, p/n 400-10078-101

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
