**End Application:**

B-1b aircraft age

**Product Name:**

Fixture assembly-balance

**Functional Description:**

Used to biplane/balance turbine and compressor rotors during depot level repair of air conditioning and pressurization subsystem turbo compressors

**Reference Data And Literature:**

Serd item no. 41d62e, function no. Fn2182; to 35-1-271-2

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
