End Application:

B-1b aircraft age

Product Name:

Fixture assembly-balance

Functional Description:

Used to biplane/balance turbine and compressor rotors during depot level repair of air conditioning and pressurization subsystem turbo compressors

Reference Data And Literature:

Serd item no. 41d62e, function no. Fn2182; to 35-1-271-2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
