Low Pressure Turb Balance Shroud - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-01-202-3141

End Application:
B-1b aircraft age.
Product Name:
Low pressure turbine balance shroud
Functional Description:
Used to reduce air turbulence effects on low pressure turbine rotor and protect operator from spinning rotor; supports stage 2 nozzle during
balancing
General Description:
Cylindrical container 39.000 in. O/a dia; 9.000 in. Lg; 21.000 in. Id; sae 1020 steel; corrosion resistant paint
Fsc Application Data:
F101-ge-102 engine
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:

No
