Overall Length:

25.000 inches

Overall Height:

21.000 inches

Overall Width:

22.000 inches

End Application:

F100-pw-100/200 engine support equipment

Product Name:

Electrical harness test set

Special Features:

110-120 vac or 220-240 vac at 50/60 hz; singlle phase

Functional Description:

Used to test electrical harness for insulation resistance and correct values of resistance, phase and impedance of components at depot

repair level

Fsc Application Data:

Fuel control system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
