End Application:

C-141 aircraft age.

Special Features:

14.69 in. W, 10.37 in. H, 11.0 in. D, c/o test program instructions, test program magnetic tape cartridge, cable assemblies

Functional Description:

Provides auto test and fault isolation of the automatic flight control system coupler; provides mechanical and electrical interface between test station and uuts

Supplementary Features:

Company name-test adapter group, aileron computer

Fsc Application Data:

An/usm-607

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
