Design Type:

Bench

Maximum Tilt From Horizontal Position In Deg:

30.0

Table Top Leveling Device:

Included

Vernier Tilting Scale:

Not included

Vernier Angular Scale:

Not included

Product Name:

Table, scorsby

Special Features:

Dimensions 12.0 inches by 12.0 inches by 9.0 inches; power 115 vac, 60 hz, 0.2 amps, 220 vac, 50 hz; cast aluminum body and steel surface plate and bearing parts; adjustment by threaded leveling supports, 4 each

Functional Description:

Used to simulate pitch and roll action, similar to an aircraft in flight, when testing the directional gyro for free drift error

Material:

Aluminum and steel

Material:

Aluminum and steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-g
