## NSN 4920-01-234-4001

Temperature Probe Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-01-234-4001

Overall Length:
8.000 inches
Overall Height:
1.550 inches
Overall Width:
4.250 inches
End Application:
T46-a aircraft age.
Special Features:
C/o heater assembly; tube assembly; probe rest; nandle; connector
Functional Description:
Used to interface switches to test set/provide controlled heat source to heat sensor to respective settings during fault isol/detect
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
