**End Application:**

T46a aircraft engine age

**Nominallength:**

2.000 inches

**Nominalheight:**

5.000 inches

**Special Features:**

C/o base; aluminum alloy; top plate; steel; bearing; shaft-rotor assembly

**Functional Description:**

Used to support bearing inner race during disassy of hydr pump

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
