End Application:

T46a aircraft engine age

Nominallength:

2.000 inches

Nominalheight:

5.000 inches

Special Features:

C/o base; aluminum alloy; top plate; steel; bearing; shaft-rotor assembly

Functional Description:

Used to support bearing inner race during disassy of hydr pump

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
