Overall Length:

14.700 inches

Overall Height:

21.200 inches

Overall Width:

8.500 inches

End Application:

F100-pw-220/229 engine

Test Item Connection Method:

Cable

Product Name:

Digital electronic engine control/engine diagnostic unit interface test adapter

Functional Description:

The adapter, interface test-engine boards is a connecting device containing internal circuitry & wiring necessary to perform a functional & fault diagnostic test of digital electronic engine control (deec) line replaceable units and the f100-pw-220 engine diagnostic unit(edu) ; connected to the test stand-engine control gsu-1/e24t; external cabling is required to interface with the engine boards during testing

Reference Data And Literature:

Serd no. 5266

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
