**End Application:**

F-16a/b/c/d aircraft age.

**Special Features:**

Company item name-tester, hydraulic motor

**Functional Description:**

Provides the torque feedback mechanism to simulate 2500 pounds per hour fuel flow proportioner flow rate by an electric motor and worm gear reduction drive

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T228-a
