End Application:

F107-wr-1012/-400 engine age.

Special Features:

C/o bearing oil scavenge line, slave; fitting; oil pressure, tap fitting; cdp tap; temperature probe; oil tank pressure tap fitting; slave start tube; vibration pick-up for, front; rear; mid triax; fuel control sensor heater; flow measurement fixture for bleeding; n1 compressor speed pickup//suggested name-adapter set, test cell, aircraft engine

Functional Description:

Will transmit data to measure, analyze and compare performance parameters

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
