End Application:

F107-wr-400 engine age.

Special Features:

C/obearing oil scavenge line, slave; oil scavenge line fitting; measuring fixture; oil tank drain fitting; compressor discharge pressure tap; temperature probe 2; fittings; slave start tube; plug oxygen manifold; oxygen caps; manifold bracket; vibration pick-up, front; rear; mid-triax; fuel control sensor heater; flow measurement fixture//suggested name adapter set, test cell, aircraft engine

Functional Description:

Will transmit data to measure, analyze and compare performance parameters

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
