End Application:

C-130 aircraft age.

Product Name:

Test set, integrated training

Special Features:

Dc/o cable set; interconnect and power control panel; inu mtg tray w/blower; display panel w/mtg provisions for an icdu, hsi, adi, and bdhi; auxiliary memory; dvs maintenance kit; transportation cases

Functional Description:

Provides system operation in a static simulation mode; lru operation; bit verification; lru fault isolation

Fsc Application Data:

Self contained navigation system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
