End Application:

Gg1111 organic depot

Functional Classification:

Aa-9.6

Special Features:

1 spin motor supply, 1 recorder, 1 counter, 2 digital volt meter (one dc only), 1 torque read out, 1 sw exitation panel, 1 oscillator, 1 amplifer, 1 power panel, 1 storage drawer, 1 scope, 1 control panel, 1 servo amplifer, 1 melt supply, 1 servo amp power supply, 1 dividing head, 1 rate table, 1 rate table encoder

Functional Description:

Provides required tests for fixed torque rates; null position; rate sensitivity; input axis alignment; ability to excite the gyro and read-out the test measurements

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
