**End Application:**

Gg1111 organic depot

**Functional Classification:**

Aa-9.6

**Special Features:**

1 spin motor supply, 1 recorder, 1 counter, 2 digital volt meter (one dc only), 1 torque read out, 1 sw excitation panel, 1 oscillator, 1 amplifier, 1 power panel, 1 storage drawer, 1 scope, 1 control panel, 1 servo amplifier, 1 melt supply, 1 servo amp power supply, 1 dividing head, 1 rate table, 1 rate table encoder

**Functional Description:**

Provides required tests for fixed torque rates; null position; rate sensitivity; input axis alignment; ability to excite the gyro and read-out the test measurements

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23800
