End Application:

F-18a acft

Functional Classification:

A9.3

Special Features:

Electrical instrument panel; 0.0 to 300.0 psig pressure gage panel assembly, 0.0 to 160.0 psig pressure gage panel assembly; differential mercury pressure gage panel assembly; differential water pressure gage assembly; valve test holder support; misc pressure gages; measuring sections, regulator and pressure gages connection panel assembly; console switch panel assembly; electrical connection panel; cabinet assembly; 220.0 vac, 400.0 hz, 3 phase, 10 amp

Functional Description:

Test stand assembly is designed to aid in checking the operation of electro-mechanical operated pneumatic valves. The valve test console provides a single point from which to control test facility components and to monitor operating parameters
