End Application:

B-1b aircraft age.

Specific Usage Design:

Hydraulic modules, hydraulic pump filter assembly

Nominalwidth:

4.000 inches

Nominalheight:

2.750 inches

Special Features:

Aluminum alloy 2024-t351

Functional Description:

Assists in installation/removal of shutoff valve and retains valve spring in place after installation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
