Overall Length:

6.280 inches

Overall Width:

3.125 inches

End Application:

B-1b aircraft age.

Product Name:

Dummy element, fluid filter

Functional Description:

Simulates clogged filter element during overhaul of hydraulic modules in order to functionally check deltadyne differential pressure indicator

Fsc Application Data:

Hydraulic pressure filter-pump

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
