End Application:

B1b aircraft age

Special Features:

0c/o power supplies 8; dc power control 1; ac power control 1; 400.0 hz reference generator 1; control and monitor unit 1; mode control unit 1; cartridge disc control 2; blower 1; timer/counter 2; digital voltmeter 2; air conditioner 4; interface electronics 1; digital computer 2; 400/60 hz power control 1; power control and interface 1; 230 vac power control; programmable 36 vdc 1; crt terminal 2; line printer 2; interconnecting cables 96; patchboards 16; 115.0/208.0 vac, 60.0/400.0 hz, 3-phase

Functional Description:

Fault isolation of the an/agm-69a and agm-86b missiles and missile sub-assemblies

Reference Data And Literature:

T.O. 33d9-61-71-1

Type/model Designation:

An/gsm-263a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
