End Application:

F-15e aircraft age.

Nominallength:

25.000 inches

Product Name:

Fixture, bomb rack unit maintenance

Nominalwidth:

9.000 inches

Nominalheight:

7.000 inches

Special Features:

C/o base plate w/a set of brackets welded to each end. A dual set of holes in each bracket allows attachment of either 14.000 in. Or 14.000 in./30.000 in. Bru

Functional Description:

Used in conjunction with p/n 7230978-150 ejector rack proof load tester to proof load the p/n 116200-1 and p/n 116000-1 bomb rack units

Unpackaged Unit Weight:

75.000 pounds

Reference Data And Literature:

Serd no. 8144; to 1f-15a-4-6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
