End Application:

F-16a/b/c/d

Usage Location:

Conus

Product Name:

Test system, f-16 fire control radar antenna

Special Features:

Consists of the following: rf field generation subsyste (compact range); antenna positioning subsystem; antenna/array control unit(acu) subsystem; signal source subsystem; recieving subsystem; digital processing subsystem; boresight subsystem; vswr measurement subsystem

Functional Description:

Fire control radar antenna test syste (fcrats)

Reference Data And Literature:

Serd number 74800

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
