End Application:

4920-01-144-8407/f101-ge-102

Special Features:

Provides the capability to verify the linearity and adjust the metering fuel flow valve to voltage ratio relationship/includes a transducer and a means to accurately adjust the transducer through its full stroke

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
