**End Application:**

4920-01-144-8407/f101-ge-102

**Special Features:**

Provides the capability to verify the linearity and adjust the metering fuel flow valve to voltage ratio relationship/includes a transducer and a means to accurately adjust the transducer through its full stroke

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A505c0
