End Application:

F101-ge-102; f110-ge-100 aircraft engine

Special Features:

Anti-icing valve test stand, p/n 3c3974g01 and engine test stand, 3c3974g01; engine test stand, p/n 3c3974g02

Functional Description:

Used to calibrate the flow measurement system on b-1b acft; provides modulated frequency signal simulating flow meter output

Reference Data And Literature:

T.O. 15e2-2-64-4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
