Design Type:

Pedestal

Maximum Tilt From Horizontal Position In Deg:

90.0

Table Top Leveling Device:

Included

Vernier Tilting Scale:

Not included

Vernier Angular Scale:

Not included

Functional Description:

Provides accurate, repeatable and measurable turning rates in the required test planes, on the inertial data assembly

Material:

Aluminum

Material:

Aluminum

Fsc Application Data:

Milstar inertial data assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T361-g
