End Application:

C-17 aircraft age.; f117-pw-100 engine

Nominal length:

1.700 inches

Nominal width:

1.700 inches

Nominal height:

26.000 inches

Functional Classification:

Gg-7.4

Special Features:

C/o 3 expandable jaws, tube/rod actuation assembly; locating tube, hand knob; jaws are capable of expanding from 1.200 to 2.700 in

Functional Description:

Used to support lower tower shaft and oil duct during installation and removal

Unpackaged Unit Weight:

5.000 pounds

Reference Data And Literature:

Serd no. 0382

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
