Overall Length:

19.000 inches

Overall Height:

12.000 inches

Overall Width:

21.500 inches

End Application:

F-15 acft

Test Item Connection Method:

Connector

Functional Description:

Used in conjunction with the memory module test station (mmts) to provide electrical and mechanical interface to mmts for the radar modules to be tested

Reference Data And Literature:

Serd no. 8338

Supplementary Features:

Company item name-test package, radar 34a1, 34a3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A537k0
