End Application:

F100-pwa-100/200 engine

Nominalheight:

2.300 inches

Nominaldiameter:

27.000 inches

Special Features:

Matl: steel, aisi 1018/4140; c/o a round collar shaped device w/flange, 9 bushed holes and several pin details

Functional Description:

Used to revise the cooling air hole pattern on hpt case

Reference Data And Literature:

Serd no. 5295

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
