End Application:

F-15e acft

Test Item Connection Method:

Connector

Special Features:

Company item name-adapter, test-interface, flight control computer

Functional Description:

Used for interfacing the lru with the mets for required testing

Reference Data And Literature:

Serd no. 8024

Supplementary Features:

Company item name-adapter test, interface flight control computer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
